

AMENDMENTS TO THE CLAIMS

1. Canceled.

2. (Currently amended). A vehicle lift comprising:

a plurality of vehicle lifting runways;

a volumetric operating system including an operating fluid supply, a pair of main cylinders and a pair of secondary cylinders that cooperate to move the vehicle lifting runways, wherein

the pair of main cylinders receive operating fluid directly from the operating fluid supply; and

each of the secondary cylinders receive operating fluid indirectly from an operating fluid outlet of a respective one of the main cylinders, and wherein each runway includes one of said main cylinders and one of said secondary cylinders wherein the operating fluid outlet of each main cylinder, which is associated with one of the plurality of vehicle lifting runways, supplies a secondary cylinder which is associated with another of the plurality of vehicle lifting runways so that each of the runways will move in parallel.

3. Canceled.

4. Canceled.
